

ΣΧΕΔΙΟ

DIPLOMA SUPPLEMENT

This Diploma Supplement model was developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgments, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

1. INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

- 1.1 Family name(s):
- 1.2 Given name(s):
- 1.3 Date of birth (*day/month/year*):
- 1.3.1 Place of birth:
- 1.3.2 Country:
- 1.4 Student identification code or number (*if available*):

2. INFORMATION IDENTIFYING THE QUALIFICATION

- 2.1 Name of qualification and (*if applicable*) title conferred (*in original language*):
Ptychio (Degree)
- 2.2 Main field(s) of study for the qualification:
Nursing

2.3 Name and status of awarding institution (*in original language*):

Technologiko Ekpedeytiko Idrima (T.E.I.) Athens, a state institution of Higher Education

2.4 Name and status of institution (*if different from 2.3*) administering studies (*in original language*):

As above.

2.5 Language(s) of instruction/examination:

Greek

3. INFORMATION ON THE LEVEL OF THE QUALIFICATION

3.1 Level of qualification:

Undergraduate (240 ECTS)

3.2 Official length of programme:

Duration in years: 4 years (8 semesters)
Teaching weeks per semester: 13 (thirteen)
ECTS Course Credits: 240
Workload (WL): 6.525 hours
Training placement: 6 months at the 8th semester of studies

3.3 Access requirements:

Certificate of Upper Secondary Education (Lyceum) and (Panhellenic) entrance examinations.

4. INFORMATION ON THE CONTENTS AND RESULTS GAINED

4.1 Mode of study:

Full-time

4.2 Programme requirements:

Students receive their degree when:

- (i) they have successfully completed their compulsory courses, mandatory electives, as well as any optional courses of the undergraduate curriculum;
- (ii) their graduation project (dissertation) has been successfully approved completed and examined;
- (iii) they have successfully completed their Industrial Placement (practical training);
- (iv) they have completed four (4) academic years of study, and have accumulated 240 ECTS credits from (i), (ii) and (iii) above.

4.4 Grading Scheme and if available, grade distribution guidance:

The grading scheme is based on the scale of ten as follows:

8.50 – 10.00:	«Excellent»
6.50 – 8.49:	«Very Good»
5.00 – 6.49:	«Good»
4.00 – 4.99:	«Insufficient»
0.00 – 3.99:	«Fail»

The minimum pass mark is 5.0 (five). For more information: www.teiath.gr

4.5 Overall classification of the qualification(in original language):

“ _____ ”

5. INFORMATION ON THE FUNCTION OF THE QUALIFICATION

5.1 Access to further study:

The degree of the Department gives access to postgraduate studies of MASTER's degree level.

5.2 Professional status (if applicable):

The Department's graduate academic and professional title is « Nurse- Technological Education graduate». The professional rights of the Nurse - Technological Education graduate are stated in the Presidential Decree No. 351 Official Gazette: FEK 159/14/06/1989. Upon completion of the programme of study, the graduate of the Department of Nursing has acquired knowledge and practical experience necessary to successfully serve the following fields, either on his own resources or in collaboration with other scientists and technologists:

1. Primary Health Care
2. Secondary Health Care
3. Tertiary Health Care
4. Administration of Health care services
5. Nursing Education
6. Research

In these fields and in the corresponding sub-fields, the Department's graduate is able to undertake responsibilities as follows:

- i. Assesment of biological and psychosocial needs of the person in all fields of Nursing.
- ii. Application of basic or specialised therapeutic techniques and procedures based on their own decisions and responsibility of performance, in order to cover the needs of the person as a biological and psychosocial entity.
- iii. Acts requiring the order and presence of a doctor.
- iv. Provision of holistic and individualised nursing care to bed confined patients of all age groups who suffer of various diseases.
- v. Education and provision of assistance to the patient in order to promote self care.
- vi. Arrangement of communication between the patient, the family, the doctor, the hospital staff and the various social institutions.
- vii. Application of protocol for emergent actions in nursing departments or specialised units..
- viii. Care and support of patients and their environment in case of chronic or untreatable diseases.
- ix. Education and provision of assistance to the patients so that care will be continued at home.
- x. Evaluation of results of nursing interventions.
- xi. Cooperation in coordination of actions for the prevention, treatment and rehabilitation.
- xii. Exercise of administrative functions
- xiii. Participation in Nursing Education
- xiv. Planning and conducting research in order to advance nursing science and methodology.
- xv. Participation in decision making of the Health Care system in order to issue health care policies.

8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

(i) Structure

According to the Framework Law (2007), higher education consists of two parallel sectors: the University sector (Universities, Polytechnics, Fine Arts Schools, the Open University) and the Technological sector (Technological Education Institutions (TEI) and the School of Pedagogic and Technological Education).

The same law regulates issues concerning governance of higher education along the general lines of increased participation, greater transparency, accountability and increased autonomy.

There are also State Non-university Tertiary Institutes offering vocationally oriented courses of shorter duration (2 to 3 years) which operate under the authority of other Ministries.

(ii) Access

Entrance to the various Schools of the **Universities (*Panepistimio*)** and **Technological Education Institutions (*Technologiko Ekpaideftiko Idryma – TEI*)** depends on the general score obtained by Lyceum graduates on the Certificate, as described above (Section 5.iv), on the number of available places (*numerus clausus*) and on the candidates' ranked preferences among schools and sections.

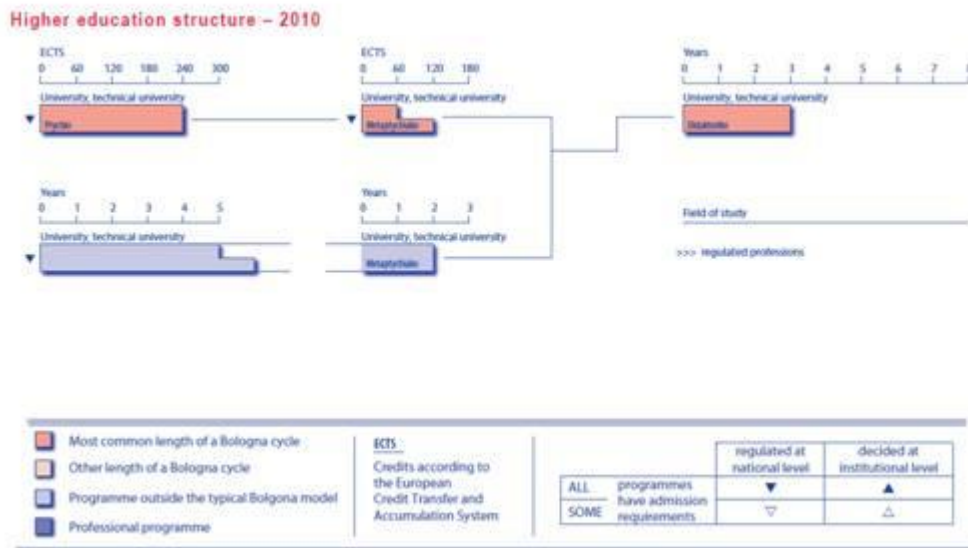

(iii) Qualifications

Students who successfully complete their studies in universities and TEI are awarded a *Ptychio* (first cycle degree). First cycle programmes last from four years for most fields to five years for engineering and certain other applied science fields and six years for medicine. The *Ptychio* leads to employment or further study at the post-graduate level that includes the one year second cycle leading to the second degree, *Metaptychiako Diploma Eidikefsis* – equivalent to the *Master's* degree – and the third cycle leading to the doctorate degree, *Didaktoriko Diploma*.

Recent legislation on quality assurance in Higher Education, the Credit Transfer System and the Diploma Supplement defines the framework and criteria for evaluation of university departments and for certification of student degrees. These measures aim at promoting student mobility and contributing to the creation of a European Higher Education Area.
