

# Boost our brands growth

## Internship in Quality Control Laboratory

Fancy an interesting and challenging internship? At our company you can benefit from an open work climate. Your enthusiasm and contribution helps the team deliver its goal. But above all your input as a person is of essential significance because at Mondelēz International our people are our secret ingredient.

As a Quality Control Intern, you are involved in the Incoming testing of raw & packaging materials as well as in the inspection & testing of finished products, working as Assistant to Senior Lab Analyst. And even more! After your internship you have gained practical knowledge that shapes a powerful career in Quality Control.

### Qualifications

We are looking for an enthusiastic student who:

- Has a passion for technical learning and a good academic standing.
- Works action and result oriented.
- Has good organizational skills.
- Is a team player and is also able to function autonomously.
- Is focused on deliverables while following a concrete time schedule.
- Is excellent communicator with very good interpersonal skills
- Has good Office knowledge (advanced Excel).
- Is fluent in English.

Location: Pavlides Plant, Athens

Start date: April 2015

Duration: 6 months

**Only applicants that enrolled at university during the entire internship period can be considered for this position.**
