

ESR MEMBERSHIP FOR RADIOGRAPHERS & RADIOGRAPHY STUDENTS

Application deadline 2018 for registration fee reduction ECR 2019

The EFRS closely cooperates with the **European Society of Radiology (ESR)** in many fields of interest for the Radiography profession.

The **European Congress of Radiology (ECR)** is also the official **scientific congress of the EFRS for medical imaging**, with a large scientific and educational programme and also offering an excellent opportunity to meet colleagues, not only from Europe but from all over the world.

Membership of the EFRS is limited to organisations like professional societies, trade unions and educational institutions. For individual radiographers ESR membership offers a number of benefits.

For 11 Euro yearly you can [join the ESR](#)

Full membership

Qualified Radiographers are in the ESR member category of Professionals of Allied Sciences. Full allied sciences members have the right to vote in the ESR General Assembly but may not stand for office.

ESR membership benefits include:

- Reduced registration fees for ECR 2019 (provided that ESR 2018 membership is activated and approved by **August 31, 2018**).
- Free access to all contents of **Education on Demand** the ESR e-learning platform, including the possibility to earn e-CME.
Over 600 lectures on the platform have been reviewed by the EFRS. Relevant topics for radiographers are categorised as: RI = Bachelors Level and RII = Postgraduate Level. There are also topics also of interest to Nuclear Medicine and Radiotherapy radiographers
- Free electronic access to the **European Radiology**
- Journal (plus monthly contents alert via e-mail)
- Free receipt of various communications.
- Access to your personalised and secured account: **MyUserArea**.

ESR Friends

Students can choose for free ESR membership as an **ESR Friend** with i.e. the following benefits'

- Free electronic access to **European Radiology** (plus monthly contents alert via e-mail), Europe's no. 1 general radiological journal.
- Free access to all contents of **Education on Demand**, the ESR e-learning platform, including the possibility to earn e-CME.
Over 600 lectures on the platform have been reviewed by the EFRS. Relevant topics for radiographers are categorised as: RI = Bachelors Level and RII = Postgraduate Level. There are also topics also of interest to Nuclear Medicine and
- Free receipt of various communications
- Access to your personalised and secured account: **MyUserArea**.
