

The background of the entire page is a deep blue image of the Earth as seen from space. A complex, glowing network of white lines, resembling a global communication or data network, is overlaid on the planet's surface. The network is denser in some areas, particularly over the continents.

Help for Doctoral thesis.

I am a doctoral student in Spain. My research study consists on comparing the study of bioethics in Spain and the rest of the countries of the European Union, for radiographers.

I would be very grateful if you could send me the Syllabus / program

This is the home page of the EFRS Radiographer Research Network, here you will find the "wall", where you will find most of the network information. At the top of the page allows you to do research.

On the left side of the platform you can view your account, profile photo, groups, messages and follow.

In the center is the wall, where you can see publications of followers and interact with them, with comments and option to follow. You can also create a new post.
